

Proposed Revisions to Management Plan

New language ~~Removed language~~

Glossary definition of "air"

Management Plan Glossary, page 1

Air (SMA): The mixture of gases comprising the Earth's atmosphere.

Glossary definition of "adversely affect"

Glossary, page 1

Adversely affect or Adversely affecting (SMA): A reasonable likelihood of more than moderate adverse consequences for the scenic, cultural, recreation or natural resources of the scenic area, the determination of which is based on—

1. the context of a proposed action;
 2. the intensity of a proposed action, including the magnitude and duration of an impact and the likelihood of its occurrence;
 3. the relationship between a proposed action and other similar actions which are individually insignificant but which may have cumulatively significant impacts; and
 4. proven mitigation measures which the proponent of an action will implement as part of the proposal to reduce otherwise significant effects to an insignificant level.

SMA Natural Resources Guidelines

1. All new developments and uses, as described in a site plan prepared by the applicant, shall be evaluated using the following guidelines to ensure that natural resources are protected from adverse effects. Cumulative effects analysis is not required for expedited review uses or developments. Comments from state and federal agencies shall be carefully considered. (Site plans are described under "Review Uses" in Part II, Chapter 7: General Policies and Guidelines.)
